

PND has been using the OPEN CELL SHEET PILE system since it was first developed in the early 1980's. The design provides a cost effective, long lasting, and extraordinarily sturdy bridge abutments.

PND Engineers, Inc., (PND) is a dynamic civil engineering firm with more than 135 full-time employees, over half of whom are licensed engineers or surveyors. Founded in 1979 and incorporated in 1981 as Peratrovich, Nottingham & Drage, Inc., PND is headquartered in Anchorage with branch offices in Juneau and Palmer, Alaska; Seattle, Washington; and Houston, Texas. PND is ranked among Alaska's largest engineering firms and is on ENR's Top 500 Design Firms list.

Historically, the majority of PND's work has taken place in the contiguous United States, Alaska, Canada, Iraq, Malaysia, and Russia. Within the last 10 years, PND has had a substantial increase in international projects.
